

Where Confidence, Kindness, and Curiosity Grow Together This Fall

A beautifully prepared environment where your child's creativity, confidence, and independence grow together.

At Villa Montessori, education goes far beyond academics. Your child will paint alongside the work of great artists, tend a garden, explore music and movement, and tackle hands-on challenges that build critical thinking. Our teachers get to know each child as an individual and shape learning around their unique interests. **Spots are filling fast!**
